

This is GLC's Childcare Accounting System. Please follow the instructions below to ensure your best experience with our center!

**Step One:** Upon Registration at Gateway Learning Center you will receive an email from ProCare which is our account management software. Please respond to that email prompt and set up your account right away!

**Step Two:** Next you will need to download your Kid Reports App. This is the main tool for communicating with your teacher and tracking your child's daily activities.
